The North Neighborhoods Democratic Council is a non-profit, public benefit, voluntary, self-governing association composed of residents, property owners, business owners, and representatives from non-profit associations and other entities located within the council boundaries. The Association is not a branch or layer of government. The Association is not a regulatory or legislative body. The Association is politically non-partisan.

We are a public benefit, non-profit association, the purpose of which is to call forth from area residents and businesses participation enabling them to address local issues and to empower them to communicate about and resolve these issues in an efficient, workable, effective manner.

Due to commencement of activities regarding improvements and developments in our neighborhoods we consider access to the above documents necessary to the planning and educational decision-making processes to which we are a party. In a public meeting on 8/14/16 of the NNDC a request for information on the environmental issues related to the Heron Pond area was made, and this subsequent FOIA request is a follow-up to that inquiry.

Yours truly,
